LACK OF SLEEP

AND STRESS ARE

**ALL HEADACHE
TRIGGERS.**

**THE IMPORTANCE OF LISTENING TO YOUR
BODY (BODY SIGNALS):**

**Headaches are one of the top three reasons
people visit chiropractic offices each day.
Affecting millions, headaches severely impact
quality of life and can result in significant
disability.**

**Research has shown that Chiropractic care
may be the best choice to find relief!**

RESEARCH THAT MATTERS:

How Chiropractic Care can help with Headaches

Chiropractors can help with headaches by targeting the underlying causes rather than just treating the symptoms. Many headaches, including tension headaches, migraines, and cervicogenic headaches (headaches caused by neck issues), are linked to misalignments in the spine, particularly in the cervical (neck) region. These subluxations, can cause muscle tension, restricted blood flow, and nerve irritation, all of which can trigger or worsen headaches.

Through spinal adjustments, chiropractors work to realign the vertebrae, relieving pressure on the nerves and reducing muscle tension. This helps to reduce the frequency and intensity of headaches but also improves posture and overall spinal health. Chiropractic care also addresses lifestyle factors that contribute to headaches such as poor posture, stress, or ergonomics.

By addressing the root causes, chiropractic care provides a natural, drug-free alternative for headache relief, offering long-term solutions without the need for medication.

THE CONNECTION BETWEEN POSTURE AND HEADACHES

WE DISCUSSED IN LAST MONTH'S NEWSLETTER ABOUT POSTURE AND PRIMARILY "TECH NECK" FROM OUR OVERUSE OF DEVICES.

THERE IS ALSO A STRONG CONNECTION BETWEEN POOR POSTURE AND HEADACHES, PARTICULARLY TENSION HEADACHES.

HERE'S HOW POSTURE PLAYS A ROLE:

- **MUSCLE STRAIN**: POOR POSTURE, ESPECIALLY FROM SLOUCHING OR FORWARD HEAD POSTURE (COMMON WITH DESK WORK AND SCREEN TIME), PUTS EXCESS STRAIN ON THE MUSCLES IN THE NECK, SHOULDERS, AND UPPER BACK. THIS STRAIN CAN LEAD TO TENSION AND HEADACHES.
- **SPINAL MISALIGNMENT**: BAD POSTURE CAN CAUSE MISALIGNMENTS IN THE SPINE, PARTICULARLY IN THE CERVICAL (NECK) REGION. THESE MISALIGNMENTS PLACE PRESSURE ON NERVES AND RESTRICT BLOOD FLOW, WHICH MAY TRIGGER HEADACHES.
- **INCREASED STRESS**: POSTURAL IMBALANCES LEAD TO MUSCLE FATIGUE & STRESS, WHICH CAN ACCUMULATE & MANIFEST AS HEADACHES OVER TIME
- **FORWARD HEAD POSTURE**: THIS COMMON POSTURAL ISSUE INCREASES PRESSURE ON THE UPPER SPINE AND NECK MUSCLES, OFTEN RESULTING IN HEADACHES AS THE BODY STRUGGLES TO MAINTAIN BALANCE.

IMPROVING POSTURE THROUGH CHIROPRACTIC ADJUSTMENTS & POSTURE CORRECTION TECHNIQUES CAN HELP RELIEVE & PREVENT HEADACHES BY REDUCING MUSCLE TENSION, ALIGNING THE SPINE, AND IMPROVING OVERALL BODY MECHANICS.

REGULATED
HORMONES,
IMPROVED
MUSCLE
STRENGTH,
AND MORE.**

1. **Chiropractic Care:** Regular spinal adjustments correct misalignments & relieve tension that causes headaches.
2. **Hydration:** Dehydration is a common trigger. Drinking enough water can often reduce headaches.
3. **Stress Management:** Deep breathing, meditation, and yoga help reduce stress, a major cause of tension headaches.
4. **Proper Posture:** Maintaining good posture reduces strain on the neck & back, which can prevent tension headaches.
5. **Essential Oils:** Peppermint & lavender can be applied to the temples or inhaled for calming and pain-relieving effects.
6. **Cold or Warm Compresses:** Applying a cold compress to the forehead or a warm compress to the neck can help reduce headache pain.
7. **Adequate Sleep:** Poor sleep can trigger headaches. Ensure you're getting enough rest each night.
8. **Dietary Changes:** Certain foods & drinks (like caffeine or processed foods) can trigger headaches, while others (like magnesium-rich foods) can help prevent them.

LOCAL SEPTEMBER FUN:

LOOKING FOR A GREAT WAY TO BE OUTSIDE AND ENJOY THE BEAUTIFUL FALL WEATHER, GET SOME EXERCISE, AND EAT SOME HEALTHY FOOD, THEN CHECK OUT KUIPER'S FAMILY FARM THIS MONTH!

FROM OUR PHYSICAL THERAPY DEPARTMENT:

HOW PHYSICAL THERAPY CAN HELP WITH HEADACHES:

PHYSICAL THERAPY CAN BE A GREAT TREATMENT OPTION FOR HEADACHES IF THEY ARE A RESULT OF TENSION OR A MUSCULOSKELETAL INJURY.

PHYSICAL THERAPISTS CAN HELP WITH POSTURAL CORRECTION FOR THOSE WHO SPEND LONG HOURS AT A COMPUTER FOR WORK OR SCHOOL, AND WELL AS PROVIDE YOU WITH NECK EXERCISES TO HELP DECREASE NECK AND SHOULDER TIGHTNESS WHICH CAN CONTRIBUTE TO HEADACHES.

PHYSICAL THERAPY CAN ALSO PROVIDE YOU WITH MANUAL THERAPY TO ALLEVIATE RESTRICTION AND IMPROVE CIRCULATION TO DECREASE HEADACHE SYMPTOMS, AS WELL AS PROVIDE YOU WITH AT HOME SELF-MOBILIZATION TECHNIQUES.

IN ADDITION, PHYSICAL THERAPISTS CAN OFFER ADVICE ON DESK SET UP FOR SCHOOL OR WORK FOR OPTIMAL COMPUTER SCREEN PLACEMENT TO IMPROVE POSTURE WHEN SEATED.

EXERCISE ESSENTIALS: EXERCISES FOR HEADACHE RELIEF

THIS IS A GOOD OPTION FOR AN AT-HOME TREATMENT FOR A SUBOCCIPITAL RELEASE WHICH CAN HELP TO ALLEVIATE HEADACHES!

Suboccipital Release Using Massage Balls

BackIntelligence.com

ASK US TO SHOW
YOU HOW TO DO
THIS EXERCISE!

EXERCISE INSTRUCTIONS:

- BEGIN BY PLACING TWO TENNIS BALLS INSIDE A SOCK.
- LIE ON YOUR BACK AND POSITION THE TENNIS BALLS JUST BELOW THE BASE OF YOUR SKULL, MOVE AROUND UNTIL YOU FIND A TENDER AREA.
- HOLD THIS POSITION FOR 1 TO 2 MINUTES.
