ADJUSTING PERSPECTIVES

YOUR PATH TO WELLNESS WITH

OLYMPIA CHIROPRACTIC & PHYSICAL THERAPY

Believe it or not,
your digestive
system is entirely
linked to your
nervous system.

Are you struggling with bloating,
constipation, or acid reflux?

Have digestive problems
disrupted your daily life?

Looking for ways to improve
digestion without relying on
medication?

WE CAN HELP!

**YOUR SPINE COULD BE THE REASON BEHIND YOUR
DIGESTIVE DISCOMFORT!**

**FIND OUT HOW ADJUSTMENTS CAN BRING RELIEF!
DON'T WAIT... CALL US TODAY!**

CHIROPRACTIC
CARE
AND
DIGESTION

**THE IMPORTANCE OF LISTENING TO YOUR
BODY (BODY SIGNALS):**

DIGESTIVE ISSUES CAN BE CHALLENGING AND OFTEN
REQUIRE A MULTI-FACETED APPROACH FOR TRUE RELIEF.
CHIROPRACTIC CARE PROVIDES A NATURAL, NON-INVASIVE
WAY TO HELP IMPROVE DIGESTION, REDUCE DISCOMFORT,
AND SUPPORT THE NERVOUS SYSTEM.

IF YOU OR SOMEONE YOU KNOW STRUGGLES WITH DIGESTIVE
SYMPTOMS, CHIROPRACTIC ADJUSTMENTS ARE A
BENEFICIAL ADDITION TO YOUR HEALTH ROUTINE.

RESEARCH THAT MATTERS:

How Chiropractic Care can help with Digestive Issues

SPINAL ALIGNMENT & NERVE FUNCTION: SUBLUXATIONS, ESPECIALLY IN THE THORACIC & LUMBAR REGIONS, CAN PUT PRESSURE ON NERVES THAT COMMUNICATE WITH THE DIGESTIVE ORGANS. CHIROPRACTIC ADJUSTMENTS RELIEVE THIS PRESSURE, IMPROVING NERVE FUNCTION - PROMOTING BETTER DIGESTIVE HEALTH.

REDUCING INFLAMMATION & STRESS: ADJUSTMENTS HELP REDUCE INFLAMMATION, WHICH IN TURN MAY DECREASE DIGESTIVE DISCOMFORT AND HELP IMPROVE THE BODY'S STRESS RESPONSE. CHRONIC STRESS IMPACTS DIGESTION, SO REDUCING IT THROUGH CHIROPRACTIC CARE WILL HAVE POSITIVE EFFECTS ON SYMPTOMS.

IMPROVING BLOOD FLOW TO DIGESTIVE ORGANS: A WELL-ALIGNED SPINE ENHANCES BLOOD FLOW AND CIRCULATION THROUGHOUT THE BODY, INCLUDING TO THE DIGESTIVE ORGANS, WHICH MAY SUPPORT EFFICIENT DIGESTION AND NUTRIENT ABSORPTION.

PROMOTING OVERALL WELLNESS: BY REMOVING PHYSICAL BLOCKAGES AND IMPROVING BODY MECHANICS, CHIROPRACTIC CARE FOSTERS AN ENVIRONMENT FOR BETTER WHOLE-BODY HEALTH, WHICH INCLUDES DIGESTION.

WHAT KIND OF MUSIC DID THE
PILGRIMS LIKE?

PLYMOUTH ROCK

GERD RELIEF AND CHIROPRACTIC CARE:

GASTROESOPHAGEAL REFLUX (GERD) IS A DISEASE THAT AFFECTS OVER 3 MILLION AMERICANS EACH YEAR. CHIROPRACTORS CAN PROVIDE EFFECTIVE RELIEF! THE SPINE, IT'S ALIGNMENT, AND OUR POSTURE CAN DIRECTLY AFFECT OUR DIGESTIVE SYSTEM.

- **LOWER ESOPHOGEAL SPHINCTER:** THIS IS THE MUSCLE BETWEEN THE STOMACH AND THE ESOPHAGUS. IT CAN BECOME WEAKENED AND THEN EMPTY SLOWLY LEADING TO REFLUX.
- **POOR POSTURE:** COMPRESSES THE ABDOMINAL MUSCLES AND KEEPS ACID IN THE STOMACH
- **ESOPHAGEAL MISALIGNMENT:** A MISALIGNED SPINE CAN AFFECT THE ESOPHAGUS CAUSING IT'S FUNCTION TO BE ALTERED LEADING TO REFLUX. IT CAN ALSO LEAD TO COMPRESSED NERVES THAT LEAD TO THE STOMACH, THEREFORE FURTHER ALTERING THE BODY'S NORMAL FUNCTION.

CHIROPRACTIC CARE COMPLEMENTS THESE RECOVERY PROCESSES BY ENSURING YOUR BODY IS IN OPTIMAL ALIGNMENT, REDUCING STRESS AND DISCOMFORT, AND PROMOTING RELAXATION AND GASTRIC EMPTYING, THIS DECREASES THE ACID IN THE STOMACH, THEREFORE ELIMINATING OR GREATLY REDUCING GASTRIC REFLUX.

DID YOU KNOW?

EACH DAY,
OVER ONE
MILLION
ADJUSTMENTS
TAKE PLACE
ACROSS THE
GLOBE.....
THAT'S A
WHOLE LOT OF
RELIEF!
WOW!!!

*Give Thanks
with a
Grateful Heart*

DAVE - I AM THANKFUL THAT I WAS ABLE TO TAKE MY SON DEER HUNTING FOR THE FIRST TIME AND WAS ABLE TO SEE HIM HARVEST HIS FIRST DEER.

ANNA - THAT HER MOM IS DOING WELL AFTER A KIDNEY TRANSPLANT

JOEL - MY NEW COWORKERS

CLAY F - FAMILY

MIKE S - MINDY, DISC GOLF, AND GRASS-FED BEEF.

DR. JEV - GREAT STAFF AND GREAT PATIENTS

DR. MIKE - OUR OLYMPIA TEAM, OUR PATIENTS, AND OUR GOOD FORTUNE. WE'RE TRULY BLESSED.

GEORGE - FAMILY AND HIP HOP MUSIC

LAURA - COWORKERS

SHIRLEY - FAMILY

ALLISON - FAMILY

BRENT - I AM GRATEFUL TO HAVE A HEALTHY AND SAFE WORK AND HOME FAMILY!

DANIELLA - BEING PART OF THE OLYMPIA FAMILY

MARICELA - MY CHILDREN AND MOTHER ARE HEALTHY!

CARIN - THE "FAMILY" ENVIRONMENT BETWEEN OUR STAFF AND OUR PATIENTS. IT'S THE REASON WHY I LOVE COMING IN TO WORK.

ELMHURST LOCAL NOVEMBER FUN:

THE RACE WILL BEGIN AT THE INTERSECTION OF PARK AVE AND ADELL PLACE.

40TH ANNUAL!
**DAN GIBBONS
TURKEY TROT**
A 5K FUN RUN

THURSDAY
NOVEMBER 28TH AT
9:00 AM

OUR PATIENTS

**PLEASE PASS ON THE GIFT OF HEALTH BY SHARING THIS NEWLETTER
WITH THOSE YOU FEEL COULD BENEFIT FROM OUR CARE!**

ASK US ABOUT A SPECIAL CONSULTATION CARD FOR YOU TO GIVE TO THEM!

**IMPORTANT
MESSAGE**

**FROM OUR PHYSICAL
THERAPY DEPARTMENT:**

HOW PHYSICAL THERAPY CAN HELP WITH DIGESTION ISSUES:

EXERCISE CAN SIGNIFICANTLY IMPACT DIGESTIVE HEALTH, OFFERING BOTH IMMEDIATE AND LONG-TERM BENEFITS FOR THOSE DEALING WITH DIGESTIVE ISSUES.

HERE IS HOW EXERCISE SUPPORTS DIGESTION AND WHAT EXERCISES MAY BE MOST BENEFICIAL:

1: STIMULATING DIGESTIVE MOTILITY

exercise promotes the movement of food through the digestive system, promoting regularity

2: REDUCING INFLAMMATION

exercise helps by regulating immune response and boosting circulation

3: BALANCING GUT MICROBIOME

activities like cycling, running, and strength training promote a healthy microbiome supporting smoother digestion

4: STRESS RELIEF

exercise is a well known stress reducer and triggers the release of endorphins which improve mood and decrease stress.

5: ENHANCE BLOODFLOW TO ORGANS

increased circulation from physical activity improves oxygen and nutrients to the digestive organs

6. WEIGHT MANAGEMENT

maintaining a healthy weight decreases abdominal pressure

EXERCISE ESSENTIALS: EXERCISES FOR DIGESTIVE ISSUES:

THIS IS A GOOD OPTION FOR AN AT-HOME EXERCISE TO HELP AID DIGESTION AND ELIMINATE BLOATING AND IT ALSO STRENGTHENS THE CORE MUSCLES

BRIDGE POSE ACTIVATES AND STRETCHES ABDOMINAL MUSCLES AND STIMULATES THE INTESTINES

ASK US TO SHOW YOU HOW TO DO THIS EXERCISE!

EXERCISE INSTRUCTIONS:

BRIDGE POSE

HOW: LIE ON YOUR BACK WITH YOUR KNEES BENT AND FEET FLAT ON THE FLOOR. PLACE ARMS AT YOUR SIDES, PALMS DOWN. PRESS INTO YOUR FEET, LIFTING YOUR HIPS AND LOWER BACK OFF THE GROUND. HOLD FOR 10-15 SECONDS, LOWER, AND REPEAT 2-3 TIMES

BENEFIT: STRENGTHENS CORE, STRETCHES ABDOMINAL MUSCLES AND IMPROVES CIRCULATION TO THE LOWER DIGESTIVE TRACT
