What is Chiropractic Care for my child?:

PEDIATRIC CHIROPRACTIC CARE FOCUSES ON THE DIAGNOSIS, TREATMENT, AND PREVENTION OF HEALTH ISSUES IN CHILDREN USING GENTLE AND NONINVASIVE TECHNIQUES. UNLIKE ADULTS, CHILDREN'S BODIES ARE STILL DEVELOPING, REQUIRING A UNIQUE APPROACH TO CHIROPRACTIC ADJUSTMENTS. THE METHODS USED ARE SPECIFICALLY DESIGNED TO BE SAFE AND EFFECTIVE FOR YOUNG, GROWING BODIES.

THE CORE PHILOSOPHY OF CHIROPRACTIC CARE REVOLVES AROUND THE IDEA THAT A PROPERLY ALIGNED SPINE PROMOTES OVERALL HEALTH. THIS CONCEPT APPLIES TO CHILDREN JUST AS MUCH AS IT DOES TO ADULTS. PROPER SPINAL ALIGNMENT CAN HELP ALLEVIATE VARIOUS CHILDHOOD AILMENTS, FROM COLIC TO EAR INFECTIONS.

WHY BRING YOUR CHILD TO THE CHIROPRACTOR?:

INTRODUCING YOUR INFANT OR CHILD TO CHIROPRACTIC CARE AT A YOUNG AGE CAN BE ONE OF THE BEST WAYS TO HELP SET THEM UP FOR A LIFETIME OF GOOD HEALTH. CHIROPRACTORS CAN HELP KIDS IN A MANY WAYS – FROM PROMOTING HEALTHIER SLEEP & BOOSTING IMMUNITY TO IMPROVING BEHAVIORAL ISSUES AND EVEN AIDING IN DIGESTION. IN INFANTS, CHIROPRACTIC CARE CAN ALSO HELP SOOTH COLIC AND REFLUX SYMPTOMS, AMONG MANY OTHER BENEFITS.

IT BALANCES YOUR CHILD'S NERVOUS SYSTEM

WHEN OUR SPINE IS OUT OF ALIGNMENT, THIS CAN AFFECT SO MUCH MORE THAN JUST OUR POSTURE, ACHES, AND PAINS. THE SPINE IS THE CENTRAL NETWORK OF OUR ENTIRE SYSTEM—PHYSICAL, MENTAL, EMOTIONAL, AND ENERGETIC. OUR CHILDREN'S SPINE AND NERVOUS SYSTEM ARE VERY DELICATE AS THEY ARE STILL GROWING AND DEVELOPING. REGULAR ADJUSTMENTS TO A CHILD'S BACK AND NECK WILL INVITE THEIR SYSTEM TO FEEL MORE SYNCHRONIZED AND SETTLED. A BALANCED NERVOUS SYSTEM TRANSLATES INTO MANY AREAS OF THEIR LIFE, PROMOTING WELLBEING, GREATER IMMUNITY, AND HEALTHY SPINAL DEVELOPMENT.

IT REVITALIZES CHILDREN'S IMMUNE HEALTH

OUR IMMUNE RESPONSE BECOMES ACTIVATED BASED ON NEUROTRANSMITTERS WHICH ARE DEPENDENT ON THE HEALTH AND FUNCTIONALITY OF OUR SPINAL CORD. IT HAS BEEN FOUND THAT CHILDREN WHO SEE A CHIROPRACTOR REGULARLY GET FEWER COLDS THAN THOSE WHO HAVE NEVER SEEN ONE.

IT PROMOTES HEALTHIER SLEEP CYCLES

CHIROPRACTIC CARE CAN HELP A CHILD SLEEP BETTER THROUGH THE NIGHT AND FEEL MORE RESTED AND CALM. AFTER REGULAR CHIROPRACTIC VISITS, PARENTS HAVE NOTED POSITIVE CHANGES IN THEIR CHILD'S SLEEP PATTERNS SUCH AS EARLIER BEDTIMES, FEWER LATE NIGHT WAKE-UPS, MORE CONSISTENT SLEEP BEHAVIOR OR NAPS, DECREASED LETHARGY, AND A MORE BALANCED FLOW OF ENERGY LEVELS.

IT IMPROVES DIGESTION AND CONSTIPATION

PROPER ALIGNMENT OF THE MID-LOW BACK, HIPS AND PELVIC AREA CAN RELIEVE TENSION ON THE INTESTINES AND PROMOTE A MORE EASEFUL EXPERIENCE.

IT SUPPORTS GROWTH MILESTONES & AIDS IN POSTURE, BACK PAIN, & INJURIES

CHILDHOOD IS A KEY TIME FOR HABITUAL POSTURES AND PATTERNS TO START. THE DEVELOPMENTAL YEARS ARE THE PERFECT TIME TO PRESERVE THE ABUNDANT HEALTH OUR KIDS ARE BORN WITH RATHER THAN NEEDING TO GO BACK TO 'FIX' OR HEAL ISSUES THAT MAY ARISE THROUGHOUT THEIR LIFE. KIDS ARE OFTEN VERY ACTIVE AND SOMETIMES TAKE FALLS THAT WE MAY NOT KNOW HOW SIGNIFICANTLY HAVE IMPACTED THEIR SPINAL ALIGNMENT.

IT IMPROVES MOOD, MENTAL FOCUS AND ADHD

CHIROPRACTIC CARE DOES NOT "TREAT" ADHD. BUT, IT CAN IMPACT CHILDREN POSITIVELY WHO HAVE BEEN DIAGNOSED & IT IS A SAFE AND NATURAL TREATMENT FOR THE SYMPTOMS. REGULAR ADJUSTMENTS HELP SUPPORT MORE EFFICIENT & EFFECTIVE NERVE FLOW. SPINAL MISALIGNMENTS OFTEN LEAD TO BEHAVIORAL ISSUES AND CHANGES IN BRAIN FUNCTIONALITY. ADJUSTING A CHILD'S SPINE RESTORES BALANCE TO THEIR BRAIN, BODY, AND THEIR ENTIRE NERVOUS SYSTEM WHICH LEADS TO HIGHER LEVELS OF CONCENTRATION, IMPROVED MOOD & FOCUS.
